### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

#### SAYS

- I have a story idea but need help making it into a comic.
- I want a creative result.
- I need a simple AI tool.

#### THINKS

- I want good story and dialogue.
- I need consistent panels.
- I want a downloadable PDF.

**PERSONA**  
**Beginner**  
**Storyteller**

#### DOES

- Enters story prompt, character and setting.
- Selects tone and art style.
- Generates, previews and downloads the comic.

#### FEELS

- Excited to create a personalized comic.
- May feel limited by artistic skills.
- Satisfied when the PDF is successfully generated.
